Subject: Re: Update - 216 W Slauson Sign - #2921-P

Dear Cameron,

Thank you for the prompt response and update.

Please have your team coordinate access direct with agencies involved being they have control of the site.

Should you have any other questions that we may be able to answer aside from the sign removal, do not hesitate to call us.

Best Regards,
Alexander Radosevic
President

Christian, I'm circulating this to you all agencies involved with clean-up effort. Sign has to come down. I have contacted the land owner requesting 6AM access Wednesday so our operations team can gain access sign and remove. There is a lock, we noticed. If you know anything about this or can help I would be grateful.

Subject: Re: Phone Call - #2921-P Slauson S/L 48 W Inskeep (TP) F/W

Cameron,

I tried to reach you this morning and left you a message. Due to the explosion at 210 W Slauson Ave, Los Angeles, the following agencies require your attention in order to proceed with site clean up works: EPA, LADBS, and Fish & Wildlife. Specifically, the agencies would like to confirm the following:

- (1) The sign is structurally sound.
- (2) When our GC, Clean Harbors, begins excavation works to the soil next to the sign, the sign will not fall.
- (3) If the sign does fall, then Outfront Media is responsible for all damages and liabilities.

We ask that you circulate an email today advising on the current condition of the sign and that it will not fall during excavation works. Kindly make sure you copy all interested parties listed on this email. Please be advised that time is of the essence and your immediate attention to this urgent matter is requested. Thank you.
